*"I've seen first-hand her determination and ability to learn quickly. Like all good engineers, Christi's mind keeps working on the problem even when she's not busy coding at her keyboard."* Owen Graupman - DevOps Architect at Willis Towers Watson's One Exchange

## My Profile

I recently went back to school in web development and have had a great experience adding to my skill set. I'm ready and looking for the right team to grow with long-term, and have abilities in multiple localities and fields that have helped me to become someone that learns my new environment and role well while also staying focused on the tasks immediately at hand. I've had the opportunity to live and work in major metropolitan areas of the United States and Moscow, Russia and I've always had a desire to achieve set goals.

*"Whatever she puts her mind to, she will see it through to the end. Get Christi on your team."* Ryan Richardson - Full Stack Web Developer

I possess:

- Git, Proficient
- HTML, Intermediate
- Excellent multitasking and organization skills
- Proficiency in MSOffice(Word,Excel,PowerPoint).
- Ruby on Rails, Beginner
- Sinatra, Beginner
- Javascript, Beginner
- CSS, Intermediate
- GitHub, Proficient

- Heroku, Basics

- Coffee Script, Basics

I'm willing to relocate for the right opportunity and am also capable of self managed remote projects.

*"She's a doer and she's dedicated."* Casey Stinett, NYCDA

I provide professional therapeutic massage, energy work, pre-natal and post-natal massage & hot stone. Over the years I have provided an array of massage services and have worked in Greenwich, Connecticut, Chicago, Illinois, and Utah.

## **Recommendations**

*"Christi is fearless! Christi's perseverance in the face of adversity is second to none. She routinely inspires me with her quality of character, work ethic and determination. In class, she visibly demonstrated exponential growth as a learner and developer. In her work, she shows a lot of care, passion, and a flair for design. Never lacking for motivation and never skimping on effort, Christi is an asset to any team who needs a job done."* **Samuel Lubin - Success Coach at New York Code + Design Academy**

*"I am lucky to have studied with Christi. She is very tenacious and has a lot of heart. I am convinced that whatever she puts her mind to, she will see it through to the end. You should get Christi on your team."* **Ryan Richardson - Full Stack Web Developer**

*"Christi has some incredible grit. She keeps going and gets done what needs to get done. She took on a pretty big project of redoing a website that was outdated. Her redesign not only brought the site into 2017, but was simple, clean, and user friendly. She's a doer and she's dedicated."* **Casey Stinnett - Lead Instructor at NYCDA (SLC)**

*"Christi is extremely driven and talented. She has shown great dedication in her programming journey and is extremely creative in problem solving and solution generation. Christi will continue to work through a problem until a sustainable and satisfactory result is achieved. I am confident that Christi will thrive with a new team and will certainly help further the company mission and success."* **Joshua Besser - Director Planning, Procurement & Energy - Nitrogen Products @ Dyno Nobel**

*"As a mentor for Christi, I've seen first-hand her determination and ability to learn quickly. Like all good engineers, Christi's mind keeps working on the problem even when she's not busy coding at her keyboard. Often, she keeps plugging away at her assignments on her own time, even after completing them, to master concepts she's learned. In particular, her passion for learning during the Ruby and Sinatra projects really stood out. I would recommend Christi for any web development position that requires a hard-working, creative individual."* **Owen Graupman - DevOps Architect at Willis Towers Watson's One Exchange Willis Towers Watson University of Phoenix Salt Lake City, Utah**
