Profile

I recently went back to school in web development and have had a great experience adding to my skill set. I'm ready and looking for the right team to grow with long-term, and have abilities in multiple localities and fields that have helped me to become someone that learns my new environment and role well while also staying focused on the tasks immediately at hand. I've had the opportunity to live and work in major metropolitan areas of the United States and Moscow, Russia and I've always had a desire to achieve set goals.

SKILLS

- | | | | |
|--------------------------------------------------|-------------------------------------|---------------|-----------------|
| - Excellent multitasking and organization skills | - Understand budgeting and finances | - HTML/CSS | - Javascript |
| - Know how to meet deadlines and schedules | - Very Personable | - Git/Github | - Heroku |
| | - MSOffice Suite | - Ruby/ Rails | - Coffeescript |
| | | - Sinatra | - SQL/Prostgres |

March 2000 - Massage Therapy, Utah College of Massage Therapy Graduate - Lindon, UT

PERSONAL INTERESTS

Dance Fitness, Painting, Hiking, Reading, Self Improvement, Management Classes

RECOMMENDATIONS

"Christi is fearless! Christi's perseverance in the face of adversity is second to none. She routinely inspires me with her quality of character, work ethic and determination. She visibly demonstrated exponential growth as a learner and developer. In her work, she shows a lot of care, passion, and a flair for design. Never lacking for motivation and never skimping on effort, Christi is an asset to any team who needs a job done."

Samuel Lubin

Success Coach at New York Code + Design Academy

"As a mentor for Christi, I've seen first-hand her determination and ability to learn quickly. Like all good engineers, Christi's mind keeps working on the problem even when she's not busy coding at her keyboard. Often, she keeps plugging away at her assignments on her own time, even after completing them, to master concepts she's learned. In particular, her passion for learning during the Ruby and Sinatra projects really stood out. I would recommend Christi for any web development position that requires a hard-working, creative individual.

Owen Graupman

DevOps Architect at Willis Towers Watson's OneExchange

"Christi is extremely driven and talented. She has shown great dedication in her programming journey and is extremely creative in problem solving and solution generation. Christi will continue to work through a problem until a sustainable and satisfactory result is achieved. I am confident that Christi will thrive with a new team and will certainly help further the company mission and success."

Joshua Besser

Director Nitrogen Supply Chain at Dyno Nobel Inc.
